Need Vegetables at Woods' Home.

There has been a good response to the appeal for vegetables for the Woods' Christain Home, but more are needed to put in storage for the winter.

Anyone wishing to contribute should do so before there is danger of freezing. Donations should be delivered to Mr. J. A. McGhee at the station and he will see they reach their destination.

BIRTHS

Didsbury General Hospital.

Mountain View Council Meeting

A proposal for the establishment of a Society for Hospitalization was presented by Mr. Stan. Edwards, of Olds, to the Council of Mountain View Municipality when they met at Olds on Saturday.

Under the scheme, members of the Society and their dependents would be entitled to hospital services at the Didsbury or Olds Hospitals at the rate of \$1.00 per day. The Society would pay the difference between the \$1.00 and the \$2.50 rate per day now charged at both hospitals. The Society would also pay operating-room fees and dressing to the amount of \$15.00 for the duration of one hospital confinement.

The annual membership fee for married men or heads of families would be \$12.00 and for single persons \$6.00. Benefits would commence from two months following the application for membership.

The Council discussed the scheme and decided to give it their support, provided that the Council of Westerdale Municipality and the Town Councils of Didsbury and Olds were agreeable to the scheme.

The Council reviewed the relief applications, and in view of the insistence of the senior governments that relief should be cut down to a minimum, relief in several cases was discontinued. The amount of relief paid for September was \$182.17.

The secretary reported that 25 crop seizures, covering 50 parcels of land, had been made for taxes. Settlement had been made in several cases and in others settlement was pending according to threshing.

A letter from the Government was read with respect to fire prevention. The farmers were warned to take all precautions when burning straw stacks and the Council was requested to prohibit the burning of stacks except in safe periods and to insist that permits for burning be obtained. The letter also pointed out that all straw stacks should be fire-guarded before burning.

One case under the Farmers' Credit Arrangement Act was reported; one application for old age pension was approved; and several applications for tax consolidation were approved.

Pioneer Resident Passes Away.

The sudden death of Mrs. W. G. Liesemer, who passed away at the aged of 64 at her home on Wednesday morning, came as a shock to her many friends and relatives in the district. She was among the earliest settlers in the district, coming here in 1901 when her husband opened the first hardware store in Didsbury.

Anna Margaret Pross was born at Mildmay, Ont., on March 14th, 1875. She was married at Mildmay to Mr. W. G. Liesemer on October 2nd, 1895. Three years later, in 1898, they moved to Morden, Manitoba. Coming to Didsbury in 1901 they have resided here continuously since that time.

Being among the earliest settlers in the town, she did her part in the upbuilding of the community. She was a charter member of the Rebekah Lodge and among the founders of the I.O.D.E. She was always a kindly neighbor and was highly respected by all who knew her.

She is survived by her husband, one son, Dr. Arnold Liesemer, of Chicago; and one daughter, Evelyn, at home. Also two brothers, John Pross of Sanborne, N.D. and Fernando Pross of Didsbury.

She was predeceased by a daughter Ruth, who died at Morden, Man., three sisters and two brothers.

Arrangements for the funeral have not yet been made.

Narrow Escape On Railroad Crossing

What might have been a very serious accident occurred at the railway crossing in town when the noon Chinook train yesterday hit the back end of a car which was crossing the track just ahead of the oncoming train.

The car, which was travelling west from the old highway, had almost got across the track when the train struck it about six inches from the rear.

Tom Morris, who witnessed the accident, says that the car spun round in the air several times but came down right side up.

The car was driven by a thresherman named Johnson, accompanied by Ross Munro. The occupants were fortunate and only received a few scratches.

Color Epic of the West.

With a cast of hundreds, topped by Errol Flynn and Olivia de Havilland, "Dodge City," Warner Bros. Technicolor epic of the old West comes to the Opera House this week end.

A lusty drama of the days when there was no law west of Chicago, it is crammed with thrilling action and colorful romance. Others in the cast besides Flynn and Miss de Havilland, include Ann Sheridan, Bruce Cabot, Alan Hale, Frank McHugh, Victor Jory and a host of supporting players and extras.

Olds Boy Killed While Riding Bicycle.

Thanksgiving was marred at Olds when it was learned that Donnie Burns, aged 13 years, son of Mrs. Ethel Burns, had been killed when hit by a car a mile south of Olds on the highway and his brother, Billy, had suffered concussion and other injuries at the same time.

The accident occurred on Monday evening when Donny and his brother were returning on a bicycle from the farm of a relative, R. G. Bolt, south east of Olds.

Donny was pedalling and his younger brother rode on the frame near the front end of the bike. At that particular moment an Edmonton car, going north, was following the boys. Another car passed going south, and the accident occurred just at the moment it had passed.

Donny was thrown into the front head light of the Edmonton car and his head forced through the windshield. He died almost immediately.

Billy was thrown nearly 30 feet from the scene where the accident occurred, and was nearly overlooked by searchers in the party. Hearing moans they traced them and found him in an unconscious condition near the ditch in the road.

I.O.D.E. Will Hold Benefit Concert

The I.O.D.E. Concert of Local Talent in aid of children evacuated from the cities in Britain will be held in the Opera House on Thursday evening, October 26.

The members of Mons Chapter, I.O.D.E., are arranging a popular program for the concert and hope for a splendid response from Didsbury and District in support of this Dominion-wide effort on behalf of the Mother Country.

Admission to the concert will be one new article of child's clothing or one new child's blanket. Silver donations will also be acceptable.

Identify Man Shot While Duck Hunting

A 27-year-old harvest hand, who was fatally shot while duck-hunting at Burns Lake on September 27th, has been identified by the R.C.M.P. as Leo Lirette, who for the past two or three years had operated a trap-line in the vicinity of Fort Resolution, N.W.T.

At the time of the shooting the deceased was known only as "Leo" to the farmer employing him. Subsequent investigation and press reports brought the affair to the attention of E. R. Kitchen, farmer, at Nanton, who had employed Lirette earlier in the summer. Mr. Kitchen identified the body.

No survivors have been definitely traced, but it is believed that a brother-in-law, name unknown, resides at Princeton, B.C.

Enemy Aliens Must Carry Cards

All enemy aliens will be provided with an identification card which they must carry at all times, it was stated at R.C.M.P. headquarters as registration of nationals of enemy countries proceeded.

The registration procedure, involving the recording of a complete life history and the taking of fingerprints, requires between twenty minutes and half an hour a person. It was estimated that it will require a week or more before all enemy aliens in the district are registered.

Superintendent J. Kelly stated that all R.C.M.P. detachments in country points are supplied with official forms and registration has commenced.

It is pointed out that registered aliens, particularly transient laborers searching for work, must secure permission of the registrar before leaving their original registration point and must report immediately to the R.C.M.P. upon their arrival in a new district.

Everybody's War

For the first time in history Canada has declared war against another country—not a war against the German people who, in the main are probably as peace loving a people as are the Canadians, but against the authority in charge of the government of Germany; in short, against the dictator, Herr Hitler.

When Canada went into the great war of 1914-18 she had not assumed the full status of nationhood and although this country, at that time, followed the lead of the Motherland willingly and even with enthusiasm, she did not have the breadth of choice that is hers to-day.

This time Canada girds up her loins as a belligerent with all the force and power of a sovereign nation in her own right. She enters the conflict as a co-partner with and of the same status as Great Britain. She voiced her decision to do so of her own volition and expressed her decision in the democratic way, through her parliament, the symbol of her democratic form of government which the people of this country have decided to uphold against aggression.

What is more, the decision of Canada to participate actively in this war, as voiced through parliament, was unanimous. All political parties represented in both houses joined forces in uttering the decree which formally lined up this country with Britain, France and Poland against the dictator who is apparently willing to sacrifice millions of his own people as well as millions of the subjects of the democracies to enable him to satisfy his lust for power and conquest.

Insofar as Canada is concerned, she has decided unanimously to play the role of a belligerent in a war to stop Hitler from continuance of a campaign of international blackmail and terrorism. The people of this country have said, along with the people of France, Great Britain, Australia and other units of the British Empire that it is high time to call a halt to the kind of thing which has constituted a continual menace to the peace of the world for the last two or three years.

The people of Canada, along with the people of the other democracies now in the fight, are peace loving. They are anxious to be allowed to go about their own business, to be able to make progress in the fields of agriculture and industry without hindrance, enjoy their social life and the happiness and contentment which are rightfully theirs. But the people of this country are not willing to buy peace at any price. They are not prepared to sacrifice the liberty and freedom won for them by their forbears. It must be a peace with honor—a peace which carries the right of self-government for Canada and all those nations whose people believe in that high privilege.

War's Responsibilities

Canada, having decided of her own free will and with all the authority of nationhood in her own right to engage in this conflict, the people of this country have, for the first time in their history, assumed all the responsibilities which devolve upon people who declare war upon others.

As a result of her own decision, as voiced through the nation's assembly, the people have decreed that, for the present at any rate, they will wage this fight on a voluntary basis and this entails upon every individual in the country the responsibility of doing his or her utmost to do his or her share to the best of his or her ability and in the manner in which he or she may be best fitted.

Such an effort is going to entail sacrifices, but the people of this country have announced that they are willing to make the necessary sacrifices, no matter what they may be or how onerous they may be.

In this country, it is everybody's war. The duty of prosecuting the war with the utmost vigor is not confined to those who volunteer their services in the military, naval or air forces, either on the battlefield in Europe, if it should be decided to send an expeditionary force overseas, or to serve in the second line of defence on this side of the Atlantic. Nor is it confined to the members of the veterans' and nursing organizations who recently responded so nobly to the call for registration of volunteers for emergency services in this country, if and when required.

No, in war time, the call is much wider than that. It embraces every man and woman and even the youth of the country. Agriculture, industry and the business of the country generally must be carried on with the maximum of energy and efficiency with the winning of the war as speedily as possible as the single objective.

The job in hand necessitates a single purpose guiding the activities of all our people, whether they be engaged in the field, the factory or the counting house; whether they be working in government employ or teaching in the class room; whether they be business executives or drawing pay as artisans or common laborers.

No one knows how long this struggle is going to be. No one knows yet what resources of finance, industry and man power may have to be drawn upon. No one knows what forces may ultimately be arrayed against the people of this country before victory can be claimed.

If for no other reason, these unknown factors dictate the necessity for preparedness and for the whole hearted and active support of all the forces this country can command in making these preparations and in waging this war. The war is a war for every Canadian.

Royal Precedence

Very few people, except those actually at Court, says the London Daily Sketch, know of the existence of a list printed on white cardboard in booklet form marked "Private" and headed "Precedence of the Royal Family to be observed at Court. Approved by the King. This clearly sets out both Separate and Joint Precedence—the latter meaning when accompanied by husband or wife who may be of lesser rank.

A cow requires about an hour to eat enough grass and regurgitate it suitably for assimilation to produce one quart of milk.

Two-thirds of the Argentine is arid or semi-arid.

Issue Is The Same

The issue can be stated as Lincoln stated it long ago, says the Toronto Star. With the substitution, now, of "world" for "nation", his declaration is this: "That this world, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth."

The Ciever Quail

The Christian Science Monitor says the sleeping habits of a covey of quail are odd. The birds arrange themselves in a compact circle with heads out and tails towards the centre, and rest closely against one another for warmth. If alarmed each one flies straight out without danger of collision.

Salaries Paid Teachers

Claimed That More Than Half The Teachers In Canada Subsist On Lowest Level

The depressing conditions that exist in the teaching profession throughout the Dominion, as revealed in a report of the Research Committee of the Canadian Teachers' Federation, presented at the opening session in Montreal recently cannot but cause widespread dissatisfaction. The statistics presented show the following astonishing facts:

More than 10,000 teachers in Canada are paid less than the mean legal minimum for female juveniles in industry.

More than 19,000 teachers are paid less than the mean legal minimum for experienced women in industry.

About 25,000 teachers are paid less than the girl who binds the textbooks.

Nearly 37,000 teachers, or about 62 per cent. of all Canadian lay teachers, are paid less than the mean minimum for unskilled factory labor.

About 53,500 teachers, or more than 85 per cent. of the total number, are paid less than skilled union workmen.

The committee, in demanding that in the national interest a survey should be made of the Canadian teaching personnel in terms of the monetary value placed upon their services, says: "To put it bluntly, more than half the teachers of Canada live at the lowest level of self-supporting penurious existence, and it is time that more light was thrown upon their condition."—The Montreal Star.

Monster Crab

Find Fossil Of Interesting Specimen In The Georgian Bay District

G. G. Albery, town clerk of Meaford, Ont., in the Georgian Bay district, said he had discovered the fossil of a monster crab along the shoreline near the blue mountains of Collingwood.

The body of the fossil is approximately three inches in thickness and the parts of the body found weigh nearly 60 pounds. The fossil is known as a "silurian euryterpid," or "monster crab," and its original life size, Albery said, was six feet in length. Scientists estimate the Silurian age was approximately 150,000,000 years ago and lasted 4,000,000 years. It is believed the region where the fossil was found was once part of an inland sea when the Gulf of Mexico extended north over this part of the continent.

Black horses are affected by heat more than are those of any other color.

William Kidd, famous pirate, was executed on May 24, 1701.

Cheap Gasoline

German Planes Must Use Gas That Diminishes Speed And Carrying Power

Germany may lose the war because she lacks "anti-knock" gasoline for her fighting planes, a well-known chemist said in Boston.

"Not enemy guns, but the 'knocking' of her airplane motors will toll the doom of Germany in this war," declared Dr. Gustav Egloff, research director for an (Universal) oil products company of Chicago, in an interview.

Attending the 98th meeting of the American Chemical Society, Egloff said Britain and France had facilities for developing "superior" gasolines from crude petroleum products obtained from the wells of Persia.

"On the other hand," he said, "Germany has principally the gasoline she obtains from coal—a product which not only diminishes the speed and carrying power of planes, but cuts down their life span."

New Marching Song

British Troops Have Adopted "Heigh-Ho" From Snow White

War songs like "Tipperary" and "Long, Long Trail" are still being sung in England, but the most popular tune among the British troops right now is "Heigh-Ho" from "Snow White and the Seven Dwarfs."

"The soldiers have changed the original script to read 'Heigh-Ho, Heigh-Ho, away to war we go.'"

Recalls Old Warning

Church bells pealed forth in Danzig to acclaim the return to the Reich. This recalls the warning of old Sir Robert Walpole when his countrymen light-heartedly embarked on war with Spain: "You are ringing your bells now; ere long you may be wringing your hands."

University Closed

Work At Famous School In Heidelberg Is Discontinued Indefinitely

Heidelberg University, world-famed seat of learning which began to decline following the advent of the Nazi regime, will remain closed indefinitely, it was announced.

Only five universities in this country will continue classes during the winter semester. They are Berlin, Leipzig, Jena, Munich and Vienna. The five were deemed sufficient to handle the number of students during wartime.

In walking one mile, the average person raises each of his feet a distance totalling a height of 340 feet.

Many Effective Devices Are Being Used In Fight Waged Against Submarines

The British admiralty has recently developed new listening devices, with great range under water, and now uses them on many naval ships, particularly destroyers and speedy pursuit motorboats designed to run down enemy submarines.

While reporting the international naval conferences held in recent years in London, the writer heard much talk of a powerful directional wireless. When a submarine prowling off the British Isles communicated with its base in Germany, this apparatus in London would intercept the message, quickly locate the undersea craft and notify the nearest destroyer. But naval men point out the destroyer has to be "Johnnie on the spot" to catch its prey.

The cruising radius of submarines on the surface, where they are run by Diesel engines, has greatly increased since the Great War. They still must run by electricity when submerged, a costly operation, and must come to the surface in a limited time to recharge batteries.

Germany's biggest submarines are credited with a cruising radius of 7,000 miles, but under water they probably cannot exceed 200 miles in a continuous run at a speed of only about seven to 10 miles an hour.

Germany officially reported last December that it had 49 submarines and 28 more under construction. These are craft of 750, 500 and 250 tons which take from eight months to a year to build. Therefore, most of the 28 are completed.

More intensified building may be expected now that war has begun. In the last war, Germany lost 205 submarines, many of them built during the war years.

The United States, on its subchasers, introduced a device at the end of the last war which now is invaluable to both subs and destroyers. The invention soon became everybody's property. It is a sound detector placed each side of the submarine. A man sitting in the centre with ear phones, listening to both mechanisms, can locate a ship. At that moment, the torpedo is pointed directly at its prey. This means a submarine does not have to rise to the surface and locate a ship through its periscope before firing.

In fighting submarines, depth bombs were only used toward the end of the last war and are much improved to-day. More widespread use of convoys to guard ships has been indicated already by despatches from abroad.

Germany's greatest losses in the last war were in the mine "bells"—five U-boats were sunk in one day after a North sea mine barrage had been laid.

Another lesson of the last war was that submarines were more effective than any other type of ship in catching submarines. Toward the end of the war when the British Q-boats, those disguised tramps and sailing ships with concealed arms, could no longer decoy the subs—Britain put its own submarines on the route taken by the German boats. Waiting under water for their prey, they took a heavy toll.

Excuse Sounded Reasonable

Two Canadians Illegally In Buffalo Allowed To Go Home

It was just a matter of hopping the wrong freight, two Canadians told Federal Judge John Knight, that caused them to cross the border into the United States.

Judge Knight of Buffalo, N.Y., suspended sentence on William J. Chartrand, 61, and Anatole Laflech, 32, both of Montreal, after they told of taking the wrong train in their search for work as fruit pickers.

"After all," they reasoned to the judge, we were standing up in a coal gondola looking at the scenery when we were arrested. If we'd been trying to sneak in we would have hidden."

In a free land you do as you please, except when you buy something you can't afford so the clerk won't think you cheap, says Robert Quillen.

A wind of 30 miles an hour is nine times as strong as a 10-mile wind.

Frenchwomen Do Their Bit

Are Taking Up Duties Of Men Called To The Colors

The women of France are helping. Amidst the direst calamity which modern warfare represents, they are doing what they can do to help their men win the war. There is no elation; no cheering; no sending the soldiers to the front with flowers on their bayonets and in their "kepis" as in August, 1914. Instead a quiet, but very grim determination can be read on the faces of every man and woman.

Over eighty thousand women in the Parisian area alone have reported for "active service" and mobilized by various organizations in connection with "passive defense" of the country. This comprises the taking care of children, evacuation, sanitary work and the manifold activities open to women in modern war.

The most spectacular service of all is that of the Women's Auxiliary Air Corps. This was started last September, and the girls underwent a course of severe training to become pilots. Over 1,000 already have their licenses and their services are available for flying staff and courier planes. There is also the Parachutists' Service—mainly a nursing corps for service behind the lines.

Many women learned to drive heavy lorries as well as other types of delivery wagons, while another very important branch of feminine activity is handled by students who work as chemists in State laboratories.

The many branches of the Red Cross are prepared for all emergencies, and ever since the last crisis have had to refuse enrollment to many women, as they were unable to provide the necessary teaching staff.

As men have been gradually called to arms from the agricultural districts, women have taken their places, as quietly and uncomplainingly as their sisters in the cities. Grey-haired, gnarled old peasant women who saw their men go to war over 20 years ago, work side by side with the younger generation.

In all the churches, at the fashionable Madeleine as well as the humble suburban churches, women are to be seen praying. Working girls will come in for a few minutes taken from their lunch-hour and kneel beside the elegants.

No Place Like Home

Most People Glad To Settle Down After Summer Vacation

The summer season, says the New York Times, has ended for many, who will find once more that after all there's no place like home.

Absence, with its eating and drinking in strange places, its sleeping in strange beds, its reading of strange newspapers and listening to strange radio stations makes the heart grow fonder of home. "Travel is a fool's paradise"—Emerson was right. Restful, no doubt, were Pineboro-in-the-Hills and Sandyville-by-the-Sea, but ah! the peace that awaits within these four walls! Prison walls we thought them, and went away to be free, yet here only is real freedom. The familiar things, rugs, mirrors, dishes, the bookshelf, the kitchen range, like friends they welcome us with no hint of reproach to the prodigals for neglecting them. Our conscience supplies the reproach. What could ever have given us the notion that life among our household gods was insufferable?

A Simple Ceremony

Canada's entry into the war was consecrated in Paris at the tomb of the unknown soldier in a simple and moving ceremony. Lieut.-Col. G. P. Vanier, Canadian minister to France, laid beside the eternal flame a wreath of roses and lilies with the inscription: "1914-1939. Adsum, Canada."

Rust and corrosion cause an annual direct loss exceeding that caused by fire and flood combined.

There are about 16,000 named varieties of roses.

Broadcasting Stations

Sliding Scale Of Fees To Be Charged By Government For Operating License

Instead of the flat rate of \$50 a year paid previously, a sliding scale of fees ranging up to \$10,000 will be paid by private commercial broadcasting stations in Canada after this, according to amended radio regulations published in the Canada Gazette.

The increase in fees implements a recommendation of the parliamentary radio committee that fees should be increased on higher powered stations servicing densely-populated areas. Annual revenue from the new fee is expected to be approximately \$26,000, compared to \$4,250 collected in 1938-39.

While the new schedule has a top of \$10,000 for 50,000-watt stations, the highest powered private station is the 15,000-watt Winnipeg station operated by Manitoba's publicly-owned telephone system. The scale for such stations is \$3,000 or \$4,000, depending on whether the population served is more than 500,000. Next highest stations are of 10,000 watts, one in Toronto and one in Calgary. Under the schedule these will probably pay \$4,000 and \$1,000 respectively, varying according to population served. One Montreal station of 5,000 watts will also likely pay \$4,000.

Stations of 100 watts or less will pay from \$50 to \$500 according to population in their service radius. Stations of 250 to 1,000 watts will pay from \$100 to \$700.

A number of minor amendments are included in the new regulations. Radio dealers will now be required to send to the controller of radio at Ottawa a statement of names and addresses of persons buying radio receivers, whereas previously they were required to see that purchasers had licenses before selling them receivers.

Licenses will not be required on crystal sets or on receivers used by utilities or manufacturers for investigating inductive interference. Short wave stations and stations operated by universities non-commercially will pay \$50.

Speaks Thirteen Languages

Well-Educated Native African Chief Lives In Uganda

Discovery of a native African chief who speaks 13 languages, including three European tongues, was reported to the International Union of Geodesy and Geophysics.

In a report prepared before he was recalled to England at the outbreak of the war, Brigadier H. S. L. Winterbottom of London, general secretary of the union, said he found the Negro chieftain, apparently an Oxford graduate, in a small village in Uganda.

The chief owned a library ranging from Shakespeare to Mark Twain, the scientist said, and helped train the natives to run survey lines through difficult jungle areas, ever teaching them to use telescopes to fix the positions of such lines by star positions.

The praying mantis, most blood-thirsty of all insects, is carried about as a pet by Orientals.

Strange Bacterium From Soil Makes The Best Germ Killing Chemical Known

Farm Accounts

Use Of Records By The Farmer Ensures More Chance Of Success

Successful farm management requires keeping and using a set of accounts and records. The use of such records gives more accuracy to plans and thus ensures more chance of success.

A farm account book forms a record of the whole farm business for the current year; and, if kept from year to year, will provide a record of the past performance upon which to base the operations of the future. Properly used, these records will lead to a better understanding of the farm business and to further improvement.

In order to maintain a record of the various farm enterprises and to prepare a yearly summary, a farm account book should include the following: inventory of the assets, accounts showing the receipts and expenses for cattle, horses, sheep, swine, poultry, labor and miscellaneous. The estimated value of the food and fuel furnished by the farm, the unpaid family labor and the board for hired labor should all be recorded. An annual summary is another necessity in a farm account book.

A plan of the farm combined with a crop record would be a useful addition to a farm account book. Such a record would show the various crops and yields, which together with data as the rates and dates of seeding, applications of manure or fertilizer, and the different cultural operations performed, would form a permanent record of great value in planning for the improvement of the farming system. Where such a record is kept it is possible to determine the effects which applications of manure, fertilizer or lime have had on any particular field, how long the effects lasted and how they compare with similar applications on other fields on the farm. This type of record leads to a definite policy of soil management.

The realization of the greatest benefit from the keeping of farm accounts and records is dependent on the summarization, analysis and study of the year's operations at the end of each record year.

A simple yet satisfactory farm account book can be obtained from the King's Printer, Ottawa, for ten cents.

Bad Luck For Some One

While scrubbing clothes in a wash-tub in the yard of Mrs. E. Brackett, of Port Elizabeth, South Africa, a washerwoman, heard an airplane overhead, then a splash in the tub, and found a pair of gold teeth under the soapsuds.

The planet Mercury travels an oval-shaped orbit. Part of the time it races along at 36 miles a second, but on the curves it slows down to 24 miles a second.

Few things are more familiar, and less known, than ordinary garden soil. Perhaps last week's report by Dr. Rene J. Dubois, of the Rockefeller Institute to the International Congress of Microbiology, is the beginning of a change. What he told them was that a hitherto unknown bacterium collected from ordinary soil makes the most potent germ-killing chemical so far known to science. A pound of it is enough to keep pneumonia germs or the still more virulent streptococci away from more than five trillion mice, if the world possessed that many mice to be protected.

What it will do for germ-threatened human beings remains to be seen, but no soil scientist will be surprised that it is so potent. Among the teeming population and cut-throat competition inside a bucketful of soil, only potent weapons against one's enemies are of any use at all.

The late Professor Milton Whitney once said that if the average camper suspected the murder and rapine and sudden death happening every second in the microscopic world three or four inches underneath his bedroll there would be no sleeping out.

A teaspoonful of ordinary soil harbors millions of living creatures, mostly with teeth at each other's throats. Scores of kinds of bacteria and animalcules struggle to survive. Worm-like, three-jawed nematodes swallow each smaller compatriot too slow or luckless to escape. Tall tales of man-eating plants in New Guinea or Madagascar nobody takes seriously, but carnivorous vegetation is a commonplace of the soil's microscopic realm. Tiny but voracious plantlets lay ingenious traps for nematodes not instantly alert. Largest is the gigantic juggernaut of an earthworm, disposing forever of a few thousand tinier creatures with each gulp of swallowed soil.

Among large land creatures, or even in the sea the principle of survival of the fittest—or the fittest—seems almost gentle. Nature, even there, occasionally may be red of tooth and claw, a million oyster larvae may be eaten to let one survive, but in the soil mutual pursuit and destruction never end; the whole soil society living, in last analysis, on the discarded roots and other parts of plants.

Lords of the domain undoubtedly are the earthworms, perhaps the most successful of all of evolution's products. Aristocrats like the five-foot singing earthworms of Australia are uncommon but lesser and more modest worms, all closely related to each other, are the most nearly world-wide of all living creatures, perhaps excepting a few kinds of soil bacteria.—New York Herald Tribune.

The Oldest Democracy

Switzerland Proves Diverse Peoples Can Live Together In Peace

Switzerland, oldest democracy in the world, has celebrated its 648th birthday. Representatives of three cantons met in August, 1291, to create a mountain republic of its German, French, Italian, Belgian and Dutch folk.

The Halifax Herald points out that the story of this confederation after six centuries each group still speaks the tongue of its original mother country) is a striking refutation of "dictators" persistent contention that diverse peoples cannot live together in amity, and that minorities are never content."

There is a lesson here also for pessimists who think Canada's racial and economic problems are too great for permanent and contented solution.—Financial Post.

No Flowers By Request

An official announcement from Berlin said Adolf Hitler would not accept flowers while travelling through areas occupied by German troops. Donors were directed instead to give the flowers to German soldiers.

Drought dried up a lake near Chambon, France, revealing a lost town on the bed.

The World of Wheat

By H. G. L. STRANGE

Director "Crop Testing Plan"

Peace the blessed state, is already at this early date being talked about. Let us hope it will soon come. The terms upon which peace can be made have been set out concisely and simply by the leaders of France and Great Britain. They are that Hitlerism and Nazism shall be eliminated, that Poland and Czechoslovakia be restored as independent nations, and that disarmament shall take place.

When peace eventually is to be made, it should not be left to the politicians alone, but the soldiers who have risked their lives, and the farmers who form the bulk of the people of the world, themselves shall have something to say about it; all to the end that not only shall a political peace be made, but what is perhaps more important, that economic justice too shall be done; so that it shall be possible for the undernourished and underfed people of Europe to obtain all the wheat and foodstuffs they require from our Canadian and other farmers, in exchange for their own goods and products.

If these things are done, then the world truly, and at last, will have a just and lasting peace.

Following factors have tended to raise prices: Uruguayan wheat and oat acreage below 1938 -- Europe is expected to need 448 million bushels of foreign wheat or flour this season -- Continuation of drought over large wheat area in U.S.A. -- Suspension of wheat subsidy in the U.S. has removed that country from the export field -- Germany is negotiating for the Roumanian corn crop surplus.

Following factors have tended to lower prices: Weekly Market News' crop report indicates a 465 million bushels crop for Western Canada -- Ploughing and seeding of Argentine corn proceeding under excellent conditions -- Germany offers wheat to Belgium -- Spain's lentil, bean and potato crops well over the average of the last 5 years prior to the Spanish war.

BIRTHS

September 30th to Mr. and Mrs. Leonard Snyder, Carstairs, a son (correction).

Notes From the West

Mr. and Mrs. E. Parker spent a few days in Calgary last week. Mrs. Hartley, who had been their guest for the past few weeks, returned to her home there.

Miss Isabel Lowrie returned to her position at the Keith Sanatorium after spending her holidays with her parents in the Inverness district.

Mr. and Mrs. M. Campbell were Calgary visitors on Saturday.

Mr. and Mrs. Carter of Calgary spent Sunday with Mr. and Mrs. E. Lowrie.

Mr. and Mrs. Romyn visited with Mr. and Mrs. S. Wright on Sunday.

Mrs. J. Hoesgood left for Edmonton on Monday to attend the W.I. convention in session there.

Keep Homes Safe.

"It is a great source of satisfaction to know that much thought is now being given to the problem of home safety. The problem is serious and it is complex. When an accident occurs on the highway everybody knows about it. There is an open opportunity to fix responsibility. Usually there is a trial and frequently damages are collected. Accidents in the home can be hidden. Home accidents are a reflection on the home or the victim and are not attended by trials of any type. Legislation can accomplish certain safety factors in industrial and highway safety, but education is the only force that will bring about home safety."

Most of us cherish the ideal of the home—an ideal that is dear to every heart. We really resent anything that threatens to invade the privacy of our homes. Every man's home is his castle, and few persons are willing to admit that the castle is not perfect.

Mothers are children's most important teachers. A child is in school only a small part of his time, and he has lived at home at least several years before he spends one day at school. Experts tell us that these are the years in which children learn very rapidly and by imitation. What a child learns before he enters school is determined not by what his father and mother know, but by what the adults do day by day.

We have a right to manage our homes. We are free to have our homes as we want them to be. Let us accept the challenge to keep our homes safe. We have a real opportunity! Mary May Wyman.

Burnside Notes

Dance at Lone Pine Hall on Fri-
day, October 27.

Miss Tena McLean, Matron of the
Peace River Hospital, is visiting her
father, Mr. Hugh McLean and other
relatives here.

Didsbury West W.I. Constituency
is well represented at the Provincial
W.I. Convention in Edmonton this
week. The following left Monday
to attend: Mrs. N. Eckel, Con-
stituency Convener; Mrs. Joe Clark,
Lone Pine W.I.; Mrs. Gulliver, Mt.-
View W.I.; Mrs. Alex Robertson Jr.,
Westcott branch; Mrs. Alex Bouck,
Big Prairie Institute; Mrs. James
Devolin, Siebertville W.I.; Mrs. Hy.
Jackson and Mrs. Jas. Hosegood,
Rugby W.I.

Lone Pine W.I. met on Thursday
last at the home of the Misses Mina
and Hazel Viney. Mrs. Bert Pross
had charge of the topic "Child Wel-
fare and Public Health." Mrs. Joe
Clark won the 5-cent draw. An auc-
tion sale added a nice little sum to
the funds. In the hobby contest
Mrs. Bert Pross took 1st on a child's
knitted sweater and Mrs. Otto Bitt-
ner 2nd on child's mitts. The W.I.
will hold a bazaar on Friday, Decem-
ber 1st and a dance Friday, October
27th in the Hall. The W.I. quilt
will be quilted at the home of Mrs.
Bert Pross on Wednesday afternoon,
November 1st.

Rugby Notes

With an attendance of 18 the
October meeting of the W.I. was
held at the home of Mrs. E. Jackson.
The appeal of the Junior Red Cross
for vegetables, etc. was brought up,
and it was decided that each mem-
ber should bring or send a donation
of either fruit or vegetables for this
purpose. Several handicraft articles
were chosen to be sent up to the
exhibit in Edmonton this week.
Mrs. Harvey Hosegood will entertain
the W.I. next month, and please,
all members, remember the Junior
Red Cross—contributed

Tree Planting

In an interview given by Hon.
N. E. Tanner, Minister of Lands and
Mines, it was learned that the Fore-
stry Division of the Department is
continuing to assist the farmers in
the very important work of tree
planting throughout the province by
providing certain species of trees for
transplanting as replacements and
extensions of wind breaks and also
by planting in existing poplar and
willow bluffs. The policy, carried
by the Department in the past, of
furnishing trees of a more durable
and longer lived species will be con-
tinued, Mr. Tanner stated.

A number of the native trees now
found in existing bluffs are not suf-
ficiently durable, creating a problem
which may be solved by the planting
of more suitable trees, both native
and exotic to the province, a solu-
tion which already has been tried
and found to be suitable. The pre-
sent cover in natural bluffs will help
young transplants greatly by provid-
ing the necessary shade until they
have become firmly established in
their new locations.

The Minister stated that there is
available for planting in the spring
of 1940 a large quantity of white
spruce, Colorado spruce, Norway
spruce, lodgepole pine, green ash
and red oak, together with a quanti-
ty of bur oak, western white oak,
European larch, Siberian larch,
Douglas fir and Scotch pine.

In order not to interfere with the
commercial nurserymen through the
province, it has been found neces-
sary to confine the distribution of
trees exclusively to farmers who will
be requiring the young transplants
for replacements and additions to
wind-breaks and shelter-belts and
for planting in existing natural bluffs
on their farms. No trees from the
Forest Nursery will, therefore, be
available to residents of cities, towns
or villages but they will be available,
however, for rural schools and ceme-
teries.

Applications for the trees should
be made to the Director of Forestry,
Department of Lands and Mines,
Edmonton, before January 31, 1940.
With the exception of transportation
charge the transplants, as in previous
years, will be shipped free of cost.

NOTICE

To Relatives of Persons on the Assess-
ment Roll and to Tenants

Notice is hereby given that dur-
ing the months of September and
October applications may be made
under the provision of Section 188
of the Town and Village Act for
inclusion in the Voters' List of the
Town of Didsbury by the following
persons, namely:

Tenants who have rented an as-
sessed parcel for a period of twelve
months immediately preceding the
last day of August of this year, and
tenants who have for said period
rented a self contained apartment or
residence on an assessed parcel upon
which there are two or more self
contained apartments or residences.

The wife, husband, father and
mother, and every son and daughter
of any person whose name appears
upon the Assessment Roll who are
entitled to be placed upon the said
list, and the wife, husband, father
and mother, and every son and
daughter of tenants as aforesaid who
have applied to be included in the
said list:

(a) If such wife, husband, father,
mother, son or daughter is either
resident within the town or assists
such person in the business in res-
pect of which he or she is taxable

(b) If he or she is of the full age
of twenty one years

(c) If his or her name does not
already appear on the Assessment
Roll

Laying for
the EAST

The East Likes Western
Poultry to the Tune of Nearly
\$2,000,000 a year

Not only do Western hens lay for the East to the extent of over 50,000,000
eggs a year, but over 6,000,000 lbs. of them, and their consorts, go East in
person to grace the dining tables of Eastern industrial workers.

The East needs the West to feed it. The West needs the East as a market
for its produce; so the two work together — the East by spending over
\$10,000,000 a year with the Western farmer, and the West — by buying
Canadian-built cars.

And that's a point worth remembering, for every car bought in the West
helps not only the food-consuming automobile worker — it keeps men
working and on payrolls in the rubber, paint, glass, steel, parts, chemicals
and many other Eastern industries, to the ultimate advantage of the
Westerner himself.

For statistical and further information about this industry, write to
Automotive Industries, 1006 Tumsden Building, Toronto.

**AUTOMOTIVE INDUSTRIES
OF CANADA**

WORLD HAPPENINGS BRIEFLY TOLD

The wartime prices and trade board announced the appointment of David C. Dick, of Cobourg, Ont., as wool administrator.

Premier Mussolini has ordered preparations for Rome's 1942 international exposition to proceed despite the war.

The Chinese embassy released a declaration by General Chiang Kai-Shek in China that "the European war should make us fight Japan with greater vigor."

Appointment of Viscount Cobham, Lord Denham and Sir Edward Griggs as parliamentary secretaries, respectively, for the war, agriculture and information ministries was announced.

Hon. W. J. Asselstine, minister of mines, said plans are being worked out with Dominion authorities for development of tungsten and molybdenum deposits in British Columbia for use in manufacture of war materials.

A big improvement in Alberta's livestock industry and a good crop of coarse grains in the Peace River district were reported in the final crop report of the season issued by the Alberta department of agriculture.

Thousands of Canadian men and women in Great Britain have volunteered for all types of defence service, the ministry of information advised the Canadian high commissioner's office.

The London Gazette announced that the King has approved appointment of the Queen as commandant-in-chief of the Women's Royal Naval Service, and commandant-in-chief of the Women's Auxiliary Air Force.

The all-Canadian Congress of Labor gave quick assent to a resolution from the Montreal branch of the Canadian Brotherhood of Railway Employees, suggesting that the armament industry in Canada be placed under government control.

SELECTED RECIPES

CREAMED DRIED BEEF DELUXE

- 4 Shredded Wheat Biscuits
- 1 lb. dried beef
- 2 tablespoons butter
- 2 tablespoons flour
- 2 cups milk
- 1 teaspoon white pepper
- 1 teaspoon Worcestershire sauce
- 1 egg yolk

Cut up the dried beef; pour over it boiling water to cover; let stand five minutes, and drain. Melt the butter over direct heat in the top of a double boiler, add the drained dried beef, and cook five minutes while stirring. Add the flour, stir well, then add the milk and seasonings, and cook over hot water until thickened, stirring constantly. Cover and cook 10 minutes. Beat the egg yolk and add to the dried beef mixture while stirring constantly. Cook two minutes and serve on split Shredded Wheat Biscuits—two halves to each person—which have been heated in a moderate oven of 375 degrees F. for 10 minutes. Serves 4.

Variations: Egg yolk and Worcestershire Sauce may be omitted. Or add a cup of sautéed sliced mushrooms to turn this into a distinguished luncheon or dinner dish.

COCONUT CREAM JUMBLES

- 3 cups sifted Swans Down Cake Flour
- 2½ teaspoons baking powder
- ¼ teaspoon soda
- 1 teaspoon salt
- 1½ cups sugar
- 2 eggs, well beaten
- 1 cup heavy sour cream
- 1 teaspoon vanilla
- 2 cups shredded coconut

Sift flour once, measure, add baking powder, soda, and salt, and sift together three times. Beat sugar into eggs. Add cream, vanilla, and coconut, and mix thoroughly. Add flour, a small amount at a time, mixing well after each addition. Drop from teaspoon, placing far apart, on ungreased baking sheet and bake in hot oven (400 degrees F.) 12 to 15 minutes, or until done. Makes four dozen jumbles.

An Unusual Accident

Thrown over a seven-foot wall in a collision between a motorcycle and a car, Lancelot Milford, 24, lay unconscious for seven hours in an Exton Cross, Eng., garden before being discovered. He was riding pillion and the driver had been too badly injured to tell he had a passenger.

Just Sixteen Years Ago

Herr Hitler Threatened To Kill Himself If Plans Failed

Commenting upon Hitler's speech to the Reichstag in which he dramatically declared that "I again put on the uniform which once was most sacred and dearest to me" and "I will take it off only after victory," a writer in the New York Post recalls that Hitler uttered almost identical sentiments 16 years ago when he urged a group of party associates to join him in the famous Bierbrauhaus putsch.

"You must fight with me," he cried at that time. "You must win with me or die with me. If this goes wrong, there are four bullets in my pistol—three for my associates if they desert me, the last for myself." And speaking, he held his revolver to his head.

The putsch was carried out and failed. Ludendorff, who had been tricked into the affair, walked calmly through the crowds into the hands of the police.

Adolf Hitler threw himself to the ground when the first shot was fired. In falling he bruised his arm, but that did not keep him from running. He found his car and drove it to the home of his friend, Hanfstaengl (Putzi), thence to Effing in the mountains where he hid until the police discovered him.

Rudolph Olden tells this story in his famous Hitler biography. Is it prophetic?—Brockville Recorder and Times.

HOME SERVICE

GOOD DANCE PARTNERS PERFECT STEPS AT HOME

Avoid Blunders on Dance Floor

No mystery why everyone avoids a partner who does his practicing on the dance floor!

"The Change Step in the Westchester?" he booms. "No, I don't know it, but now's a good time to learn." And off he goes, expecting to succeed with pushes and shoves!

The new steps are so easy to learn at home with diagrams, there's no reason why anyone should fumble in doing them at dances—or resign himself to doing the old steps over and over again!

Here's the Change Step in the popular Westchester. Count 1—Step forward quickly on left foot. AND—Step forward quickly on right foot, even with left, rising on balls of both feet. Count 2—Step back slowly on left foot.

As he steps forward into other smart variations the man indicates the lead with a forward motion of his body. The girl follows easily if she is erect, lightly balanced on the balls of her feet.

Learn the new steps, how to do them with grace and ease, from our 32-page booklet. Gives diagrams and instructions for the Westchester, waltz, tango, rumba, Conga, Samba, fox trot and shag, also the Castle Walk, Waltz, and Maxixe. Includes basic steps, smart variations.

Send 15c in coins for your copy of "How to Do The Newest Dance Steps and Variations" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

The following booklets are also available at 15c each:

- 155—"Glass Gardens and Novelty Indoor Gardens".
- 176—"How to Improve Your Bridge".
- 147—"How to Budget and Buy for Better Living".

Salvaging All Metal

Germans say Poland's battlefields will be a disappointment to souvenir hunters. Empty cartridge clips, shells, steel helmets and other metal are gathered up after fighting ends and taken back to Germany, they said, to be melted and used again. The army has special units for this work.

Colorado's mountainous area contains 49 peaks more than 14,000 feet in height; Switzerland has only eight such peaks. 2326

KIDDIE BOLERO JUMPER STYLE

By Anne Adams

4210

Don't miss this new and unusual jumper style... it's just what you want to send your little girl back to school or to kindergarten. In Pattern 3210, Anne Adams has included a jumper, a blouse and a bolero. Isn't the jumper adorable—its neck forms a low V. You may sew up the front or make a convenient button opening. The whole jumper, excluding the cute pockets, is cut in just two easy pattern parts. Make it in gingham, seersucker or lightweight wool. Then make a blouse of dotted swiss, broadcloth or linen, and a rounded bolero in a fabric to match or contrast the jumper.

Pattern 4210 is available in children's sizes 4, 6, 8, 10 and 12. Size 6, jumper and bolero, takes two yards 54 inch fabric, blouse, ¾ yard 35 inch fabric; jumper alone, 1¾ yards 35 inch, blouse, ¾ yard contrast and 1½ yards lace edging.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly: Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There are more than 200 separate and distinct currencies in China today. Most of these are worthless in places other than in their province of origin.

Leprosy in Hawaii has steadily decreased for the past 40 years, and has decreased 50 per cent. in the last four years.

During the time of King Henry VIII. of England, royal command required a copy of the Bible printed in English to be deposited in every church.

MEMORIAL CAIRN IN THE WINDERMERE

Sixty-five years after his death, David Thompson, said to be the greatest land geographer who ever lived, but who died in obscure poverty in Montreal, was honored with a memorial cairn at Wilmer, B.C., in the Windermere, September 4. The simple cairn of rock to which residents of the Windermere valley contributed, was unveiled by Dr. Mary Crawford of Winnipeg after an address by Judge F. W. Howay of New Westminster, B.C., noted historian and director of the National Sites and Monuments Board. Capt. E. N. Russell, superintendent of Yoho and Kootenay National Parks, Field, B.C., was in charge of the arrangements. The dedication included the reading of Bliss Carman's poem, "David Thompson", and the singing of the ballad "David Thompson", composed by John Murray Gibbon of Montreal.

David Thompson, with extraordinary accuracy, placed on the map the main routes of natural travel in 1,200,000 square miles in Canada and 500,000 square miles in the United States; surveyed the headwaters of the Mississippi, and discovered a new route to Lake Athabasca. In the picture at the extreme left is Judge Howay with other officials and Dr. Mary Crawford in the left foreground.

Were Out To Help

Busy Farmers Again Prove They Are Always Good Neighbors

In these grim days when there seems little but darkness around, a little story comes from Orangeville, Ontario, that is a small gleam of light, states the Montreal Star. It appears that at the end of July a farmer named Lorne Miller near here was badly hurt in a farm accident, so badly hurt that he had to have a serious operation, and to prevent internal hemorrhage word went around that blood transfusions would be necessary. Within a very short time (they dropped whatever they were doing, and at this time of year a farmer will be doing something) three cars full of farmers were rushing into Orangeville to offer their blood to Lorne Miller in his time of need.

That it seems to us, is the sort of thing that ought to happen just now, when millions and millions of unwilling men may at any time now be letting each other's blood. Most of these volunteer blood donors were, it is safe to say, anything but happy about it. A number of them would be scared half to death. Blood transfusion is a minor affair, with little more than discomfort in it for anybody and no danger from the donor, but there are a great many people to whom it seems a pretty terrifying business which anybody would be excused from avoiding at any price. But the Grey County farmers didn't stop to ponder the situation for a minute. A fellow-farmer was in a bad jam and they were out to help him, even if it took a lot of their blood. We are obliged to those farmers. A thing like that helps at a time like this.

Has Full-Time Job

Air Marshal Bishop, V.C., Advisor To The Defence Ministry

Air Marshal W. A. Bishop, V.C., is now serving the Defence Ministry as a full-time advisor on air matters, it was learned at Ottawa.

His duties are to advise the Government on all phases of military aviation. An inspection of the various flying units across the country will be one of the first major items on his program.

As chairman of the Air Advisory Committee, Air Marshal Bishop did inspection work on a purely voluntary basis during the past year. Now, with the country at war, he will devote his full time to such work.

Have Taken Up Duties

Hundreds Of Women Doing Auxiliary Service With Royal Navy

Thousands of women will soon be doing auxiliary service with the royal navy at the home ports, the ministry of information announced.

Already 1,140 women who received training during peacetime are on duty. Others are now undergoing training.

Volunteers for the women's reserve naval service average 300 to 400 daily.

TOPICS of VITAL INTEREST

by DR. J. W. S. McCULLOUGH

WATCH YOUR HEART

By the time definite heart signs appear, be it pain, tightness under the sternum (breast bone) pain to the left of the heart and down the left arm, some damage has been done. In some cases there are signs of so-called indigestion, shortness of breath during or after slight exertion or inability to lie on the same low pillow you have always been used to.

The foregoing are warning signs that you can no longer keep step with the younger generation. You may have to change your manner of living and avoid over-exertion. Work and play must be regulated so that you get enough but not too much physical exercise. A moderate amount of outdoor exercise will be good for you but it must not be violent. Pulling, straining, heavy lifting and rushing around must be avoided. The weight should be kept down. Too much bulk is a strain on the heart.

What about the use of tobacco? Most heart specialists will tell you that a moderate amount of smoking will do no harm. The minority say that tobacco tightens up the blood vessels and adds to the work of the heart. Experience teaches that most men beyond 50 can no longer tolerate the number of cigars or pipes they formerly consumed. Perhaps it is safe to say that three pipes or an equal number of light cigars per day will do little or no harm to most individuals. There are exceptions and if one finds an increase of symptoms after using tobacco it will be wisdom to drop the habit. Remember the final injunction: After middle age have your heart examined by a competent doctor at least once a year.

Editorial Note: Readers desiring the complete set of Dr. McCullough's cancer articles at once may secure same by writing to—The Health League of Canada, 105 Bond St., Toronto, Ont.

Built On New Principle

Rockefeller Institute Will Use Artificial Heart For Medical Research

Colonel Charles A. Lindbergh has announced a new kind of artificial heart, in which several living organs can be kept alive simultaneously.

It is built on a new principle and for the first time makes organized artificial life possible. The heart resembles an hour-glass. It is one piece of blown glass, the bottom chamber being the conventional hour-glass form, while the top chamber is rounded.

The tissues to be kept alive are placed on the flat bottom of the lower chamber. Above, the upper chamber is partly filled with artificial blood. This red fluid flows up and down between chambers.

Kept at body temperature gases are used to drive the blood through the heart. They enter the glass through a sterile door made of cotton fibres.

The bases are not only the driving power for the heart, but also the air for the living tissues. The exhausted air passes out through another cotton filter door.

Colonel Lindbergh publishes the details in the Journal of Experimental Medicine. He made the heart for the Rockefeller Institute for medical research. A note states it has been used successfully at the institute in unpublished experiments by Raymond C. Parker. Lindbergh's previous artificial hearts were made for Dr. Alexis Carrel, who retires this year.

Horses, cows and sheep may be a menace on the highways, but most careful drivers detest a roadhog.

A golf ball leaves the club at a speed of about 180 feet a second when hit by the average golfer.

SAVES YOU HOURS OF Heavy Work

A SOLUTION* of Gillett's Pure Flake Lye will take the drudgery out of dozens of tasks. It clears clogged drains . . . lifts grease and hard-baked food off pots and pans . . . It saves rubbing and scrubbing because it cuts through dirt in a jiffy. Keep a tin handy.

FREE BOOKLET—The Gillett's Lye Booklet tells how this powerful cleanser clears clogged drains . . . keeps out-houses clean and odorless by destroying the contents of the closet . . . how it performs dozens of tasks. Send for a free copy to Standard Brands Ltd., Fraser Ave. and Liberty Street, Toronto, Ont.

THE RIVER OF SKULLS

by George Marsh

© PENN PUBLISHING COMPANY
WNU SERVICE

CHAPTER V.—Continued

It was July, the Montagnais "Moon When the Birds Mourn", and the trade was at its height at Fort George. Gradually the coast Crees were taking their families to summer fishing camps on the coast islands where the Hearne's salmon, sea-trout and whitefish were, schooling before ascending the rivers to their spawning grounds, and where the Canada geese, pintail and black duck would flock with their new broods. Remnants of the great icefloe from Hudson's Straits, Fox Channel and the Bay of God's Mercy which had besieged the coast in the spring, now drifted far in the great bay, slowly vanishing under the sun and the warm rain winds.

The remaining days of his stay were busy ones for Alan. There were supplies to be carefully checked, all of which he bought with his credit at the posts. The money McCord had given him he hid carefully under the floor of his cabin. The extra flour, beans and sugar Noel got through Montagnais, as well as the extra gill-net which might some day, in the heart of the unknown country, save their lives. Fearing the havoc which the tongue of Mrs. Hanbury had undoubtedly created at the Revillon Freres through the oily Rivard, for days Alan avoided the parting with Berthe. But at last, hungering for the sight of her face, driven by the desire to defend himself, he went to the Revillon Freres.

Gabriel Dessane and Pierre were busy with Indians, so Alan waited until the factor was free. As he lounged against the counter, Arsene

Rivard entered the room, saw Alan, flushed and went at once to the desk behind the counter where he busied himself with an account book.

So she's been here, surmised Cameron. Berthe knows Mrs. Hanbury came to my house. Rivard's lost no time telling her mother some wild lie about that call. There's little chance for me now, with Berthe. Finishing with the Indian, Gabriel Dessane approached Alan and gave him a hearty handshake. "How are you, Alan? They tell me you got the dogs you were after. Come outside where I can talk to you."

In the empty clearing Dessane began: "You start with the police this week McQueen tells me. That is good!"

"Good?" protested Alan. "I can't help myself, can I?"

"No, but your going to Whale put yourself in a bad light here, Alan. Everyone thinks you met this McCord."

"Do you?" Alan looked hard at the kindly Frenchman.

"You say you did not. For me that is sufficient." The other smiled inscrutably into Cameron's level eyes.

"I came to say good-by to Berthe but—she's turned against me. The other night she heard I had talked to Mrs. Hanbury and was jealous. Madame Dessane, Rivard, they've been working on her."

Gabriel Dessane raised both arms to the skies in an eloquent gesture. "Mon Dieu, what that Madame Hanbury has done at Fort George! My wife to me will speak hardly at all. Tiers! Alan, it is terrible!"

Alan smiled at the older man's vehemence.

"She tried to get information the night I was here and, three nights ago, she came to my house and—"

"And what, Alan?" Gabriel Dessane was interested.

"Well, she may be a government agent but—"

"Go on, Alan."

"She tried her best to make me talk. I had nothing to say."

Dessane seemed disappointed. He frowned at the distant hills across the great river. "She has been at me to attempt to learn from you if you met this McCord—and to find out where. She is a pretty woman, yes—a pretty woman," he said with a sigh. "She has made much trouble for me."

"Now about Rivard," demanded Alan, immersed in his own problem. "You know how I feel toward Berthe. Do—do you object to my hoping—that some day—"

The older man placed his hand kindly on Alan's shoulder.

"There is much time yet, Alan. You are both young—too young. You have your way to make."

"But Rivard, he's wasting no time," Alan demurred, vehemently. "Are you his friend or mine?"

Dessane's face sobered. "Rivard is sent here by the company. His family has influence. I am helpless. And there is Madame Dessane! She is very difficult."

"I see," replied Cameron, with a shrug. "I'm a poor man—a hunter, without a decent home to give her. Rivard will go up in the Company. I see! Well, I'll go and say good-by if she'll see me."

"You must not forget that you are under a cloud here—the police may make serious trouble for you. But Berthe will see you. She is not happy. She does not know what to think."

Alan started to move away, then turned to the older man. "Oh, I want to ask you a question. When you were at Fort Chimo did you ever hear of the River of Skulls?"

Dessane stood for a time with knit brows, seemingly groping deep in his memory. "I recall, now, an old Naskapi once told me about a River of Skulls where there had been a battle between the Huskies and the Indians," he answered. "They exterminated each other. And their spirits now moan in the gorge near which the fight took place. He said some of the bones and skulls are still found along the shore. But the Indians were afraid of this moaning gorge, Manitou Gorge, the Gorge of the Spirits, as they called it, and most of them avoided it."

"Was this river far in the interior, south of Chimo?"

Oh, yes, deep in the caribou barrens. He said it was a branch of the Koksoak, but no white man has ever been there. It's a country where even the Indians starve when they miss the deer migrations."

Alan bade the trader good-by.

then, braving the stony face of Madame Dessane, went dejectedly to say his farewell to Berthe. At the door where once he had been welcome he was kept waiting by what, judging from the sound, appeared to be a heated argument, punctuated by the shrill voice of his friend, little Manon. At last the door was opened by Berthe.

"I am leaving in a few days," he said, probing her dark eyes in an attempt to read her thoughts. "I've come to say good-by, Berthe."

"Come in, Alan," he said, with a faint smile.

"Berthe," he began, "I can't go with you feeling this way! It's all Rivard and this woman, I know. You don't understand what she's up to."

"I understand this much," the girl retorted bitterly. "She was at your house. She boasted to Madame Martin, at the Northern Trading Company, that she had twisted you round her little finger." Berthe flung back caustically, her black eyes snapping as blood flushed her dark face.

There were tears in his eyes as he watched her wrestle with pride and doubt and the loyalty of years.

"Oh, it's not that! You're wrong! It's not this woman!" she protested.

"It's your suddenly going up the coast when you'd been away—so long! You went to see Neil Campbell! You know you did! Everyone believes it! It's that you went away and did not tell me the truth. You couldn't care so much for me and do that. It's that I've lost faith in you—that's all!" With a sob and a faint "Good-by, Alan!" Berthe ran from the room.

CHAPTER VI.

There were only a few friends to bid Alan and Noel good-by on the beach at the Hudson's Bay Company when they loaded their canoe for the long trip to the headwaters. But, at the Revillon Freres, the entire population watched Trudeau and Goyette, McQueen's helpers, with two hired Montagnais canoe-men, stow the outfit in the two police canoes. Near them, Dessane and Rivard talked to McQueen, Slade and Mrs. Hanbury.

Shortly, the police and the woman who had turned Fort George into a hotbed of gossip withdrew from the group and talked, heads together, in low tones. Then, after hurried good-bys, the two boats headed for the far shore where Alan, with his four Ungavas running the beach, was riding the flood tide.

Later, in front of the Northern Trading Company, a sea-plane taxied up the river, lifted, then in a long loop returned and passed over the police canoes.

Three days upstream, where the Big River roars down from the high plateau in a series of falls and chutes and the Indian trail, for a hundred miles, follows a chain of lakes, Alan brought McQueen and Slade to his camp.

"We're going to see a lot of each other in the next few months," began the older officer, "why can't we shake hands on this and be friendly?"

"What do you mean, friendly?" demanded Alan, studying the insinuating, close-set eyes of the other. "You're police. You can give me orders."

Day after day, the men slaved at pole, paddle and tracking line as they ascended the great river. As the August days drew to a close and the nights sharpened with frost the canoes reached the forks in the high tundra country. Northeast, three days hard poling up the strong water of the Mad River was Alan's hunting country.

Fifty miles to the east, on the Talking, stood a cabin in a clearing

where a man waited with a girl for the coming of a canoe. Far to the south, the great lakes Michicun and Patemisk emptied into the Conjuror, the largest of the three branches. (To Be Continued)

The Same To-Day

Britain Fighting For Security As She Did 139 Years Ago

It is interesting to recall the fiery speech of Pitt, prime minister of England, 139 years ago, who, like the great Chamberlain of to-day, was the genius directing affairs at home when the nation was fighting Napoleon.

The occasion of Pitt's speech was a query—one that comes from a man whose chief desire seems to be that he might have something to say at a critical time. Tierney, the man who asked the question, asked Pitt to state what the country was really fighting for. The absurdity of this question was painfully apparent, but Pitt was ready, not with a carefully prepared speech, where each sentence had been weighed and measured, but with an impromptu deliverance that has never been forgotten in history. His reply to Tierney, strange as it might seem, would be a reply to anyone asking the same question to-day. It was:

"The honorable member," said Pitt, bending angry brows upon his interlocutor, "defines me to state in one sentence the object of the war. I know not whether I can do it in one sentence; but in one word I can tell him that it is security; security against a danger, the greatest that ever threatened the world. It is security against a danger which never existed in any past period of society. It is security against a danger which in degree and extent was never equalled; against a danger which threatened all the nations of the earth; a danger which has been resisted by all the nations of Europe, and resisted by none with so much success as by this nation, because by none has it been resisted so uniformly and with so much energy."

Value Of Gliding

Motorless Flight In Heavier Than Air Machines

Among the heroic exploits during Poland's brave defence of Warsaw must be listed the daring air fight of Second-Lieutenant Palusinski, who engaged single-handed 12 German bombers as they were dropping explosives on the city. Lieut. Palusinski managed to shoot down one of the raiders before his own ship was disabled and began to fall.

At that point in the infectiously courageous incident, Lieut. Palusinski turned to his long experience as a glider and succeeded in getting his dead plane under control. He landed it, even though he was wounded, with nothing more than a severe shaking up.

For some ten years now the art of gliding, or motorless flight in heavier-than-air machines, has had the attention of serious-minded aviators. It has proven its value by making records for both long-distanced and sustained soaring. And most aviators who have been flying for any length of time are familiar with the necessary technique.

Lieut. Palusinski's experience, then, is a hint that air commanders will not be slow to take. The gliding potentialities of each combat machine will be carefully estimated, and fighting pilots will certainly make the most of them. Many machines, and what is more important still, many lives will thus be saved through the knowledge gained by peace-time gliding. Winnipeg Free Press.

Yugoslavia's Boy King

Is Being Trained To Become Country's Supreme War Lord

Little King Peter, who refuses to hunt because he cannot bear to shoot a rabbit, is studying to become supreme war lord of his 15,000,000 subjects in Yugoslavia.

The shy, sensitive boy, whose widowed mother calls him "Baby Petrushka," has been enrolled as a buck private in one of the world's toughest armies. In two years he must become commander-in-chief of a country where warfare is burned into the race by years of struggle.

The 15-year-old monarch is in striking contrast to the sun-tanned, raw-boned, broad-shouldered youths who serve in his legions. Peter has big brown eyes and delicate, almost feminine features.

His grandmother, the late Dowager Queen Marie of Rumania, once remarked, "What a beautiful girl he would have made if he were not such a handsome boy!"

King Peter will receive the crown from his uncle, Regent Prince Paul, on his eighteenth birthday—Sept. 6, 1941. His classical education completed this spring, he must cram many years of military experience in the next two years.

Like other Yugoslav boys, he has received no preliminary military training for the government considers such instruction unnecessary for its youth. Every Yugoslav is considered a natural soldier because his country has waged centuries of internal struggle and guerrilla warfare against the Turks and other peoples.

Unlike other Yugoslav boys, however, King Peter will do his military studying at home. The faculty of the Belgrade Military School will come to his marble palace outside the city for his arduous task allows no time for entering barracks.

Boss: "My wife heard that I took you out to dinner the other night." Secretary: "Well?"

Boss: "That makes you my former secretary."

Down in Nova Scotia they have begun to teach people how to speak Gaelic. Elsewhere we seem to continue to need instruction in how to speak English.

Watch for the Legion Dance at Rugby Hall on October 20.

Miss Dorothy Huget, of Calgary, spent the holidays with her parents, Mr. and Mrs. J. E. Huget.

Amateur concert and dance will be sponsored by the Canadian Legion on Friday, Nov. 10th.

Mr. and Mrs. W. Morrow, of Calgary, spent the holidays with the latter's parents, Mr. and Mrs. H. M. Reiber.

Privates Ed. and Russell Carleton of the Calgary Highlanders spent their week end leave at their home here.

Mr. and Mrs. B. Robinson, of Morrinville, visited at the home of the latter's parents, Mrs. G. Sexsmith, during the holidays.

Buy Your Fall or Winter Underwear from Scott's—our prices are not advanced in these lines.

Look for special announcement next all about the big chicken supper to be put on by the Evangelical ladies.

Harvey and Miss Ruby Sproule, of Calgary, visited at the Ranton home during the thanksgiving holidays.

Murray Kendrick, who is attending the University at Edmonton, spent the holidays at his home here.

The local branch of the Canadian Legion will hold an Amateur contest and Dance on Friday, November 10. Watch for further announcement.

Ed. Buhr, who is managing an elevator in the Lethbridge district, was home for the holidays during the week end.

"Dodge City"—melting pot of adventures, settlers, gunmen, cattle, cash and killers! Riotous land of lusty life and sudden death! At the movies this weekend—Errol Flynn!

While in Calgary on Monday we saw Sergt.-tailor Wm. Smith and Mrs. Smith. They wished to be remembered to their friends in this district.

A Melville Anderson, Optometrist and Optician, 224-8th Avenue West, established in Calgary since 1910, will be at the Rosebud Hotel on Wednesday afternoon, October 18th.

Mrs. Florence Simpson, who has been visiting with her sister, Mrs. Sid Gilson, and her mother, Mrs. A. Dundas, at Allingham, returned to her home at Vancouver on Monday.

Mrs. E. G. Ranton, Bill Ranton and George Kercher motored to Edmonton for the holidays. Mrs. Ranton will visit relatives for a few days and the boys returned on Monday.

A number of local football fans took in the games in Calgary on Friday and Monday and were disappointed when the Calgary team was defeated in both games by Winnipeg and Regina.

Gunner Paul Frasch, of the Royal Canadian Artillery, and Mrs. Frasch visited the latter's parents, Mr. and Mrs. J. H. Lowrie, over the week end. Miss Vera Lowrie, of Calgary, was also a visitor with her parents for the week end.

Len Berscht and Russell Ady spent Thanksgiving Day hunting. They got their limit of partridge in the morning south west of town and in the afternoon they drove to Markerville to get a few northern duck which were reported to be in flight. All they saw was a fool hen.

Miss Margaret Morton, of Strathavon, who has been visiting with her brother, Mr. W. Morton, and family, left on Monday on the return trip to her home in Scotland. She will visit in Ontario and take the first available boat leaving for the old country.

Charley Mortimer, Clint Reiber, Tom Johnson and Ross Ford took their last fishing trip of the season when they drove to Kananaskis. Fishing did not turn out very good though Clint landed a good cut-throat trout. They say, however, it was a fine trip. On the trip they looked over the concentration camp at Seebe.

Have you tried a pair of Scott's \$1 Genuine Kangaroo Tan Gloves?

K. Roy McLean, Optometrist and Optician, will make a special visit to the Rosebud Hotel on Wednesday afternoon October 25.

Mr. W. J. Hillyard, of Penticton, is visiting with Mr. and Mrs. W. J. McCoy and renewing acquaintances here this week.

Scott's Footwear was all bought before the advance—and we are still selling at the old prices.

J. V. Berscht & Sons this week received an order for some Monarch dove wool from Colorado Springs, Colo. Needless to say, they were pleased to fill the order.

Rev. Rudolph H. Schulze has been appointed to take charge of the Moravian Churches of this district and has taken up his residence in Didsbury with Mrs. M. Cummings.

Coming — Rev. Dr. George W. Kerby, Principal of Mount Royal College, Calgary, will give a lecture in Knox United Church on Monday, October 23rd, at 8 p.m. The subject of the lecture will be "Visitations, Observations, Personal Contacts, and the Questions of War and Peace, resulting from my Recent Trip to the Old Country."

Rev. John M. and Mrs. Fawcett entertained their family for Thanksgiving. The visitors were Mr. and Mrs. J. Allen Fawcett and Miss Beryl Fawcett of Calgary; Mr. J. Philip Fawcett of Big Valley and Mr. S. Vernon Fawcett of the University of Alberta. Mr. Vernon L. Miles of Calgary Normal School was also a visitor.

St. Cyprian's Church was crowded to overflowing on Sunday afternoon, the occasion of the Harvest Festival and the visit of Rt. Rev. L. Ralph Sherman, Bishop of Calgary, who delivered the sermon and also confirmed a class of four into the fuller membership of the Church. Following the main service, eight children were baptised by Rev. A. D. Currie, rector, a record for the parish over a period of years.

Week-end Specials: Organdie trimmed aprons 25c each, at Townsend Ladies' Wear.

Knox United Church Notes

On Sunday, October 15th, the minister will speak at all points on the Charge on "Flourishing Christians." A new series of talks to boys and girls will begin. A hearty welcome awaits you at the service nearest to your home.

CARD OF THANKS

We wish to thank our friends, the members of the Moravian Church, and the Hospital Staff, for their sympathy in our bereavement and their kindness during the illness of our father. We also wish to thank the members of the M.B.C. Church, where the funeral service was held.

Mrs. Henry Schneidmiller and family.

Notice to Creditors and Claimants

In the Estate of JAMES EUBANK, late of the District of Didsbury, in the Province of Alberta, Farmer, Deceased.

Notice is hereby given that all persons having claims on the estate of the above named JAMES EUBANK, who died on the 2nd day of June, A.D. 1939, are required to file with Robert Eubank of Didsbury, Alberta, by the 18th day of November, A.D. 1939, a full statement duly verified of their claims and of any securities held by them and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated this 2nd day of October, A.D. 1939.

MCCORMICK & O'BRIEN,
Solicitors for the Executors.
Ponoka, Alberta.
